MEMORANDUM

TO: Joan Armstrong, Director
Department of Planning and Development

THRU: Robert C. Schmidt II, County Engineer/Director of Public Works 

FROM: David Benbow, General Services Engineer 

DATE: January 23, 2013

SUBJECT: Southern Delivery System – Haul Route Plan Roads/1041 Permit 2008-002

We have received a Maintenance Report and written notice from Colorado Springs Utilities requesting inspection of the Haul Route Plan (HRP) roads for the S-2 segment of the Southern Delivery System (SDS) north of State Highway 50 in Pueblo County. The notice states that Reclamation and Construction activities for the SDS S-2 segment have ceased and that all maintenance activities are completed. Per this request we have inspected the above identified HRP roads for compliance with 1041 Permit 2008-002 conditions and the letter of May 29, 2012 from Mr. John Fredell titled "Southern Delivery System, Pueblo County 1041 Permit No. 2008-002/Road Rehabilitation Payments". It is our finding that reclamation and construction activities for the above SDS S-2 segment have terminated, the applicant has maintained the HRP roads in a satisfactory manner and that all maintenance activities required to be performed for use of said roads has been completed. This department does not oppose approval of this request.

Please do not hesitate to contact this office if you require further information or have any questions in this matter.
