Subject:

Wild Horse Creek Drainage

Message:

Dear Commissioner Ortiz,

Walker Ranches and the Nature Conservancy are doing a good job of preserving areas of Walker Ranch with conservation easements. You have an opportunity to save the Wild Horse Creek Drainage easement currently zone S-1 for public use. This is a beautiful area of Pueblo County that is currently available as a public use area for hiking, biking, horseback riding, and wildlife viewing. This area is home to rabbits, jumping mice, bobcats, deer, antelope, prairie dogs, rattle snakes, red tailed hawks, road runners and many other animal species. If Walker Ranches and the Nature Conservancy can be applauded for saving areas of concern, I ask that you do the same for areas open to the public such as Wild Horse Creek. Please don't allow transmission lines to sully this beautiful public area.

Thank you,

Melvin & Heidee Manrose
