HOUSE BILL 1041 PERMIT NO. 1041.2019-003 - Seth Boudiller, Project Manager, Black Hills Energy (Applicant)
Black Hills Energy, Gary R. and Georgia A. Walker, and Pueblo West Metropolitan District (Owners)
HDR Engineering, Inc., c/o Pamela McWhorter (Representative)

DESCRIPTION:

The applicant is requesting approval of a permit by the Pueblo Board of County Commissioners, as the designated Permit Authority, for construction of a 115-kilovolt electric transmission line in unincorporated Pueblo County. The transmission line would start in Pueblo West and traverse toward Cañon City. The proposed Cañon West Reliability Project will occupy a 125-foot wide right-of-way, crossing about 16.9 miles of land in Pueblo County on lands in the A-1 Agricultural, S-1 Public Use, and I-2 Industrial Zone Districts.

In Pueblo County, all of the proposed line is to be built: (1) in existing utility easement corridors that are intended to be used for projects exactly like this one and which BHE has an existing "use by right"; (2) on Walker Ranch where there is approval from the landowner; and (3) in an easement that is located on property owned by the Pueblo West Metropolitan District located near the Pueblo West Industrial Park. No other private property is necessary for the Project in Pueblo County.

The overhead transmission line will be constructed within the existing Wild Horse Creek and West Station utility corridors; structures will be between 70-90 feet high and spaced about every 500 feet. Structures in the industrial park area will be steel tangent monopoles that are between 90-105 feet high. The wood H-frame structures will be 60 - 80 feet high and spaced about every 600 feet.

LOCATION

The permit is requested for the electric transmission line proposed within Pueblo County lands in the Pueblo West Metropolitan District and in certain Sections, Townships, and Ranges in the 6th P.M. as described in the application submittal documents.
